Director's Note

At some time in our lives we all need to get away; to take a moment to work out what we want from life and to rediscover what's important to us. Lotty Wilton, Rose Arnott, Mrs Graves and Lady Caroline Bramble are four women with pressing problems that are stopping them from moving forward in their lives. They muster the courage to leave their mundane, unloving, lonely or pressured existences and escape to 'San Salvatore', a villa in Italy. Here they forge new friendships and reconnect with what's important to them. And what better way to do this than by taking a month's holiday abroad? Join them for an enchanted evening.

Debbie Smith
